PAVIA

PRINCIPLES AND OBJECTIVES

Art. 1 - The *Collegio* represents the place where students, without distinction of nationality, income, social/cultural background, or type of degree pursued, devote themselves to the highest levels of university education in compliance with the rules of civil co-existence. Open dialogue and debate are the preferred means of resolving any issue whatsoever.

Art. 2 - The primary objective of the *Collegio* is that of allowing students to reach the highest level of education, culture, and professional training, even through the removal of social and financial barriers, and making available to them, within the limits allowed by the financial statements of EDiSU, all that can be done to make their attendance to undergraduate and postgraduate courses more productive. The *Collegio* contributes to the attainment of full civil, social, and cultural maturity of its students, allowing them conscious involvement in community life.

Art. 3 - To reach the objectives stated in art. 2, the *Collegio* offers its students, besides a range of practical services, cultural and educational assistance as well, thanks to the availability of libraries and the organization of conferences (open even to the public) and internal seminars on topics and issues of cultural and social interest, supplementary courses, that may be arranged even in cooperation with other institutions specifically appointed, thus providing students with opportunities for debate, investigation and intellectual enrichment.

CONCERNING THE STUDENTS

Art. 4 - The students residing in a *Collegio* are those announced as winners of the annual competition held by the EDiSU agency (*Ente per il Diritto allo Studio Universitario*) of the University of Pavia and those whose placement has been re-confirmed in compliance with the Call for Applications.

Placements for graduates and for students attending specialization courses or PhD programmes may be reserved within the Community, under the terms and conditions stated in the Call for Applications or as temporary guests of the "Accommodation Service".

Art. 5 - Student placement is maintained over the years after the student's first year in the *Collegio* by complying with the obligations prescribed and under the terms and conditions established by the Call for Applications.

In case of transfer from one BA degree course to another, the student can ask the Dean (*Rettore*) to confirm his/her placement, as an exception to the principle of steadiness in academic progress referred to in the Call for Applications, by means of a duly justified request.

The Dean can accept or turn down the request through a motivated provision approved by the President of EDiSU.

Art. 6 - Placement within a *Collegio* is normally awarded for one year and can be confirmed until students have completed their specific degree course, provided that beneficiaries pass the normal credit-earning exams prescribed by their individual study plan, or, in case said exams are not required, write a report, under the terms stated in the Call for Applications ("Re-confirmation" section), on the activity carried out and on the state of their research, approved by the Professor of Reference or by the Research Director.

Should graduate students, even during the academic year, end relations with the University of Pavia, for this sole reason they will lose entitlement to their assigned placement in a *Collegio*.

When re-confirming placements, the Dean will also take into account the graduate's cooperation in promoting the various forms of cultural and tutoring activities in the *Collegio* and, should the student be a graduate in Medicine and Surgery authorized to practice the medical profession, providing First Aid care.

conduct in order to ensure that said conduct with the student body and the staff working within the *Collegio* agrees with the principles of civil co-existence. For the purpose of improving Community functionality and pursuing students' educational, training, and cultural goals, the Dean can establish further rules not expressly stated in the present Regulations, provided that they are not in conflict with said regulations.

- ✓ suspension for 1 to 14 days or for 15 days to 3 months depending on the seriousness of the case or its recurrence, which upon proposal of the Dean and with the consent of the addressee of the measure can be substituted with community service for organizations or associations with a social purpose;

Written admonition and suspension orders are given directly by the Dean through a motivated provision.

The student is always entitled to present his/her reasons and justifications in written form, within 5 days after receiving the written complaint.
