Specialisation course, Master's degree course (2 years)	35	=	=	=	=	80*
COURSES WITH ENTRY TEST (only for courses with entry test at a national level)						
Bachelor's degree (3 years)	35	88	=	=	=	148*
Bachelor's + Master's single cycle degree course (5 years)	35	88	148	209	=	269*
Bachelor's + Master's single cycle degree course (6 years)	35	88	148	209	269	329*
Specialisation course, Master's degree course (2 years)	35	=	=	=	=	88*
POST-GRADUATE COURSES						
Specialisation courses (except for those pertaining to the medical field)	necessary requirements for admission					
PhD courses (except for recipients of PhD scholarships and research funds)	necessary requirements for admission					

* and in any case not exceeding the maximum number of credits that can be acquired by passing all the exams (Attività Didattiche)

APPLICATION OF THE PROPORTIONAL CRITERION: In the event that the organization of the courses foresees that the student can achieve a number of credits that's less than 60 (for each year completed), the merit requirements set out in Attachment A are redefined in proportion to the credits actually achievable.

Important: The number of credits required to access the rankings lists for EDiSU benefits is calculated with reference to the educational credits recognised for the course of study for which the student is requesting the benefit and established for each academic year, starting from the year of first absolute enrolment and including any academic years in which the student has, for whatever reason, repeated the same year of enrolment.

Credits deriving from supernumerary exams are excluded from the totals shown above.

In case of exams consisting in several modules, the credits deriving from individual modules that aren't officially registered in the student's online Booklet will not be considered valid.
